Parent Orbit App Instructions and Information

Dear Parents and Caregivers

At Mundaring Christian College, we know that a strong partnership between families and the school is vital for our students' success. We are excited to introduce the TASS Parent Orbit App to improve communication. We invite you to download the app and discover its fantastic features. Please find attached a summary of valuable details for your convenience, including the key features of the app and the steps to download and start using the app.

Please note that the Orbit App is not a replacement for Parent Lounge; it simply offers a user-friendly way to access your parent portal on your mobile device. You can still use Parent Lounge to access your parent portal on a computer.
